NU-FOAMICIDE®
 DISINFECTING, SANITIZING & CLEANING SOLUTION
 MANUFACTURED BY GLISSEN CHEMICAL COMPANY, INC.

DISTRIBUTED BY

NU-FOAMICIDE®

DISINFECTING, SANITIZING & CLEANING SOLUTION

From between-service tabletop cleaning to deep disinfecting at the end of the shift, the concentrated power of Nu-Foamicide® will save restaurant, bar and institutional kitchen operators time, money and sanitary concern.

To keep a hygienic and safe environment, make sure to complete the full regimen of all techniques, as appropriate.

- Each gallon of concentrate will yield up to 256 usable quarts or 64 usable gallons of solution depending on the intended use (see details to right).
- Registered under EPA#10324-166-40672 and on the EPA's N List recognized as a sanitizer to eliminate the growth of bacteria and as a disinfectant to kill 99.999% of germ causing viruses including human coronavirus SAR-CoV-2 (not CoVid-19*).
* Currently, no disinfectant has been specifically proven to kill CoVid-19.
- This product meets AOAC efficacy standards for hard surface sanitizers
- This concentrate does not contain any phosphorus. The active ingredients are:
 - N-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)
 - Dimethyl benzyl ammonium chloride 0.781%
 - N-Alkyl- (88% C12, 32% C14)
 - Dimethyl ethylbenzyl ammonium chloride 0.781%
 - Inert ingredients 98.438%
- Disinfected surfaces must be washed or rinsed with water to be considered food safe
- Each gallon jug features an attractive, cash and carry label detailing best solution dilutions, intended usage, safety and handling instructions, etc.
- 38 mm jug opening can be used with our #10662 pump for convenient pre-measured 1 oz dispensing.
